# VALENTIN FOEX

## FULL STACK DEVELOPER

## JOB OBJECTIVE

I am a French second-year computer science student with a passion for new technologies and development. I understand the importance of a website for a company or an individual, and I would like to develop my knowledge through professional experience in the web development. I made a lot of little web project and self-learn some technologies like Rest API.

## EXPERIENCES

**June 2020 to March 2021**  
**FYMDESIGNS Website**  
**IUT Annecy, France**  
Website creation and development  
in team for the company  
FYMDesigns  
Using Laravel, Tailwind CSS

**January 2020**  
**ZoneSki**  
**IUT Annecy, France**  
One week school project, a  
website about the ski  
Used HTML, CSS, JS

**August 2018**  
**Haute-Savoie Habitat**  
**Annecy, France**  
Summer job, working as a  
customer manager.

## EDUCATION

From **Sept 2019** To **June 2021** **DUT Informatique (2-year university diploma in computer science)**  
**University of Savoy / IUT Annecy - Annecy-le-Vieux, France**  
Initiation to IT, Web, Project Management

**June 2019** **French Baccalaureate STI2D SIN (High School diploma specialized in science and computer engineering) with honors**  
**Lachelal High School - Argonay, France**

## INTERESTS

I did 10 years of tennis in club but actually I play for fun.

I also play basketball with friends.

I love the competition spirit in online video games.

My favorite hobbie is to listen song, I like all types of music like :  
US/FR Rap  
Electronic music

Learn new technologies and use them in small personal project.
